Statement of Purpose

IN JUNE 1967 jet aircraft and motor torpedo boats of the Defense Forces of the State of Israel brutally assaulted the American naval intelligence-gathering ship, *USS Liberty*, while in international waters off the coast of the Sinai Peninsula in the Mediterranean Sea. The attack was preceded by more than six hours of intense low-level surveillance by Israeli photo reconnaissance aircraft, which buzzed the ship as low as 200 feet directly overhead. The carefully orchestrated assault that followed was initiated by high performance jet aircraft. This was followed by slower and more maneuverable jets carrying napalm, and was finally turned over to lethal torpedo boats, which blasted a forty-foot hole in the ship's side. The attack lasted more than two hours, deliberately killing 34 Americans and wounding at least 171 others. Over 821 rocket, cannon and machine gun holes were inflicted. When the *Liberty* stubbornly remained afloat despite her damage, Israeli forces machine-gunned her life rafts, firefighters, stretcher bearers, and sent helicopters carrying troops to finish the job, no survivors were to be taken.

At this point, with Sixth Fleet rescue aircraft supposedly en route, the government of Israel apologized and the identity of the assailants became known.

Details of the attack were hushed up in both countries. Israel claimed that her forces mistook the *Liberty* for an Egyptian ship, and our government quietly accepted that excuse despite evidence to the contrary. No ship in our history has ever received such damage and casualties by accident. Then our government downplayed the intensity of the surveillance and the severity of the attack, and imposed a news blackout on the crew to keep the story under control. The official version is that the *Liberty* was reconnoitered only three times and only from a great distance. The American people were told that the air attack lasted only five minutes and that it was followed by a single torpedo and an immediate apology and offer of assistance. Nothing could be further from the truth. In June 1982, fifteen years after the assault, crewmembers reunited for the first time in Washington, D.C. It was a tearful, joyful reunion in which the men not only released their pent up emotions and decided that the **USS Liberty Veterans Association** would be formed with the firm goals of finding all crew members, holding reunions, proper recognition of Captain and crew (in particular those who lost their lives), obtaining a Congressional investigation into the attack, and...

TO BRING THE TRUE STORY OF THE ATTACK ON THE U.S.S. LIBERTY AND HER HEROIC CREW TO THE AWARENESS OF THE AMERICAN PEOPLE.

Letter from the President

We lost another shipmate this month, heartbreaking. More are sure to follow. Not a good way to start my comments. It tells me how fortunate we were to have been spared June 8, 1967, being alive, having families. What a gracious, loving gift from God. We carry on in His name with the truth.

New Hampshire SB1041 at this point has been tabled until fall of this year. USS Liberty continues its fight for justice, no matter what. Getting a fair shake from our government is not going to happen. Very simple reason, we were dead men walking. We were set up by the very government for death that we swore an oath to defend. That is a national disgrace then - and even more so now.

Our USS Liberty Memorial Monument: At this point we have been turned down by the Navy Museum and NSA. Another long list of denials which has USS Liberty on it. But we don't give up that easily. I am working now with other sources for a place of honor to place it. Our reunion is closing in on us fast. Please make your reservations soon. I hope to see many of you, shake your hands and thank for your service on USS Liberty and to America!

Respectfully,
Phil - 970 201 7612

Letter from the Chaplain

Just recently I have had contact with Terry Halbardier's daughter, and I am going to relieve her of the flag she has that flew over the capital, I guess honoring Terry, as I am not sure yet about all this Plus I will be getting his uniform and decorations. She also has an official letter stating that this flag I will be receiving is the actual flag.

I will be looking to place it in the Michigan Heroes Museum. She hasn't gotten anything yet for me, but I am waiting, and will make sure his stuff is placed, as I am in a good position to do so. I feel very thankful that she contacted me, and didn't let this stuff go by the wayside. Since our govt. doesn't seem to care, I am going to make sure it happens.

If there is anyone that wants their items placed in a good museum, I am in a position to do so.

USS Liberty Memorial Garden - from Gordon B Dempsey Pc

Hope to post gazebo bulletin board content, as it develops, online. Here is the entire Christmas message I sent out this year to family, etc:

Three photos of the USS Liberty memorial garden are on the back. (I removed the cover from the 5 ft x 2 ft sign temporarily for the photos - official unveiling will be later, maybe with better letters.)

The covered sculpture above is a 9 ft long, 2D steel knockoff of the shot up vessel. The pavers lining the river pebble are salvaged from the Indiana War Memorial. The long path is for slope limits, under the Americans with Disabilities Act. There are 15 stainless garden tags marking 20 native trees and shrubs, and a well elevated overlook of the regional park.

You can Google Earth 2701 E Riverside Dr, Indpls, to see Riverside Regional Park, the new promenade along the street, and the rest of the setting.

Wikipedia, a propaganda machine for Israeli and Jewish interests, calls the massacre an "incident" and omits many of the compelling statements by US military, diplomatic and intelligence leaders. They briefly mention the thorough 2007 expose in the Chicago Trib, omitting John Crewdson's earlier Pulitzer. Before long, he was gone from major media. Ray McGovern, who gave Pres Reagan his daily CIA briefings, pointed to the attack and its later handling, as the most dramatic example of Israel's domination of the US, probably true until 9/11.

One garden at a time, restoring America to a self governing republic.

Maybe you can extend holiday wishes to the Christians and others in Palestine, presently facing the likely final stages of the genocide, planned and commenced when Israel was founded, and bankrolled by America.

Gordon

PS: I got your card for 10 cents at Dollar Tree (12 for \$1.25). Merry Christmas to me.

USS Liberty Story on Medium.com - Wayne Stiles

I recently did a story on the USS Liberty incident for Medium.com. It has been read by hundreds of people that frequent that site. I have been approached by another newsletter site for permission to show my story there, which I have given. It is really amazing the interest people all over the world seem to have in the tragic event of June 8, 1967 and its aftermath. I think if more survivors would write about their experiences, there would be greater interest by the public to get to the bottom of why Israel attacked the Liberty.

Here is my story: <https://bit.ly/3J2X7KE>

New Hampshire House Bill 1041 - Larry Bowen

On January 12th the state of New Hampshire held a public hearing on HB 1041. This Bill is to formally establish a commission to investigate the attack and aftermath of the June 8th 1967 brutal attack on the USS Liberty. Your LVA President Phil Tourney, former President Larry Bowen, and Marine GYSGT Bryce Lockwood were present to represent the crew. We each had an opportunity to speak to the Bill and explain why we as a crew support the Bill. The weekend began with a pot luck dinner at one of the local citizens' home. During the dinner we spoke with several citizens regarding why they supported the Bill. After dinner, Phil, Larry and Bryce met with the Bill's prime sponsor Representative Jason Gerhard. We talked about how we were going to address the Hearing committee the following day. On Friday we got to the capitol by 8:30 to be sure we were there for the start of the day's hearings. Bill 104 was the second Bill on the docket. The cosponsor, Representative Michael Granger, introduced the Bill and then Larry spoke to it. Bryce followed Larry and Phil followed Bryce. Each of us had a few minutes to address the committee as well as other citizens who were in support of the Bill. The only negative input came from American Legion representative Mr. John Graham who stated that the American Legion did not want to participate on the commission. His testimony was very brief and he took no questions before he left. He did say that he personally did not oppose the Bill but that National had a position. I have to say that I wasn't surprised by the stance that the American Legion has taken. A critical piece of this entire weekend was the support provided by Matt Sabourin. He coordinated our travel, accompanied us to the capitol, picked us up from the airport on Thursday and generally keep us up to speed on what was happening when. Thanks should go out to the New Hampshire citizens who helped to make our stay as pleasant as possible. Another shout out should go to Ms. Kathy Peterson who met us at the airport, took us to lunch after the hearing and saw us off at the airport on Saturday. Everyone was very kind and treated us like family.

The "Rockstar" Incident - Dave Van Hoven

Shown is the advertisement for the presentation I made as per my email to your website seen in the December 2023, LVA Newsletter.

The presentation was made on January 10, 2024 and was attended by 68 people in our retirement community on a chilly, windy day.

There were no surprises for me. However, those attending had no idea or only vague notions of that day's tragedy. That was not surprising to me as their presenter as I had already concluded that two principal reasons existed for this to happen: 1). The 1960's was a decade of tremendous social domestic upheaval and media attention and 2). The complicit and continuing suppression of the facts the by the Israelis and our government to this very day of March 23, 2024.

As we are well aware, the October 7, 2023 Hamas attack had its genesis in the land grab by the state of Israel during the Six Day War of 5-10 June 1967. That the USS Liberty was an innocent non-combatant data collector and a supposed ally of the Israelis only added to the tragic casualty rate of 70% and the loss of a valuable intelligence asset.

THE "ROCKSTAR" INCIDENT

"The radio signal was weak and sounded like static. But John Lipscomb, a nineteen year old radioman aboard the aircraft carrier USS Saratoga, somewhere in the Mediterranean Sea, thought he could hear a pattern hidden in the noise. He managed to tune it in and made out a panicked voice, speaking over a backdrop of gunfire and explosions.

Any station this net, any station this net. This is Rockstar. We are under attack.

It was the fourth day of the Six-Day War between Israel and three Arab states. "Rockstar" was the call sign of an American navy ship in international waters North of the Sinai Peninsula.

Within minutes, the Saratoga, far from its home in Florida, quickly turned into the wind and launched defensive aircraft headed toward Rockstar". *

Join Dave Van Hoven, a LTJg aboard the USS Saratoga, to learn more of this tragic bit of naval history; the repercussions of which are still present today.

Update from Don Pageler (contd.)

- 5. On 1/16/24 through the Freedom Committee of Orange County I told the Liberty story to the students at Back Bay High School in Costa Mesa, CA. I sat at a table and spoke to groups of 4 to 5 students at a time. A little more intimate setting. One girl asked me if I thought wars solved problems.
- 6. On 2/28/24 I gave my presentation to students at Ensign Middle School in Newport Beach. The teacher of the 2 classes said she majored in history at the University of California at Berkeley and said she had never seen anything about the Liberty in text books and knew nothing about it.
- 7. Also on 2/28/24 I addressed another one of Saul Lankster's International and Domestic Terrorism class at National University. The students were so stunned that when asked if they had questions at the end, there was just silence.

USS Liberty FOIA Lawsuit Update

This update will cover the latest news since Senior Judge Marsha Pechman's November 4, 2022, "Additional Order on Cross-Motions for Summary Judgment". The case captions are:

- *Kinnucan v. National Security Agency et al.*, no. 2:20-cv-01309 (W.D. Wash., filed Sep. 1, 2020)
- *Kinnucan v. National Security Agency et al.*, no. 23-2500 (9th Cir., filed Oct. 2, 2023)

Here's a summary of the major events since the "Additional Order" was filed:

A. Pages Released. On January 6, 2023, the government released about 250 pages of partially declassified Central Intelligence Agency (CIA) records. These are records the CIA had previously released to me during the course of the lawsuit. However, in the wake of the "Additional Order" the agency unredacted additional portions.

B. Third Order Filed. On July 31, 2023, Judge Pechman issued her "Third Order on Cross-Motions for Summary Judgment". She ruled in favor of the National Security Agency (NSA) and CIA but not before compelling the CIA to release the 250 pages mentioned above. The "Third Order" effectively ends the lawsuit at the trial court level unless the case is remanded on appeal (more on that below).

Judge Pechman's "Third Order" was disappointing to anyone hoping to get the full record on the attack on the USS *Liberty* released. However, I should add that, given the binding legal precedents which constrain her, Judge Pechman's rulings in the case were probably much better than might be expected from many of her peers. Also, it is important to note what was achieved over the course of the lawsuit.

First, the CIA eventually produced five batches, totaling hundreds of pages, of records that they had initially identified as both responsive to my requests and unreleasable. In sum, the records included 171 pages with no redactions or redactions that are unlikely to be relevant to the attack on the *Liberty*. While much of the material is not germane nevertheless it is not useless as some of it adds to or amplifies the existing record. Moreover, several pages of relevant material—records that had never been released before or released with fewer redactions were obtained.

Second, the lawsuit helped identify additional unreleased material that is likely pertinent. A minimum of five separate records can be documented to have existed but which the CIA has never produced or acknowledged. Of the released material, the agency also withheld at least fourteen pages in whole. On 24 pages it released, the agency redacted all substantive content. There are an additional 47 pages with less extensive redaction(s) of material that is likely significant to the USS *Liberty* inquiry. Knowing that there is likely relevant material that the CIA has and still refuses to release is useful. Of course, it's not nearly as useful as having it released but it's not without value.

My general sense is that the agency is still guarding material that is very important to understanding what happened on June 8, 1967, and afterwards. Two examples may suffice.

First, the CIA has neither acknowledged nor produced any records bearing on the analysis of the three field intelligence reports directly implicating Israeli officials in a knowing attack. According to these reports, intelligence sources in Tel Aviv stated: "Israel's forces knew exactly what flag the LIBERTY was flying" and Israeli Defense Minister Moshe Dayan "personally ordered the attack" on the *Liberty* over the objections of senior military officers, one of whom characterized the attack as "pure murder". The agency produced those three reports but no underlying record of any analysis despite the fact that there is documentary evidence they were evaluated.

USS Liberty FOIA Lawsuit Update (contd.)

Second, nearly everything apparently pertaining to the *Liberty*—up to eleven pages—is wholly redacted from the never-before-released June 28, 1967, Director of Central Intelligence briefing to Congress. If you have the financial or legal resources to help me go after those and other records then please reach out to me via the USS *Liberty* Veterans Association.

C. Attorney Fees Paid. Last December the government agreed to pay a substantial sum in legal fees to my attorneys.

D. Appeal Briefs Filed. The appeal of Judge Pechman's ruling on the status of a two-volume December 1967 US House Appropriations Committee (HAC) report in the possession of the NSA is now underway. This document is of great public interest, in part, because it has never been released in any form.

It is also noteworthy because of what investigative journalist Stephen Green claimed the report revealed (see Stephen Green, *Taking Sides: America's Secret Relations with a Militant Israel* (Morrow & Co., 1984)). According to Green, the late Robert L. F. Sikes, who was an Appropriations Committee member, said the report contains CIA witness testimony that on June 7, 1967, the Israeli government threatened to attack *Liberty* if she was not kept far away from the area of Israeli operations. In his book, Green also stated: "The information provided by Representative Sikes has been corroborated by other committee sources who do not wish to be identified".

If true, this would seemingly confirm the three CIA field intelligence reports mentioned above. The opening brief in the appeal was filed on January 22, 2024, and an amicus brief on behalf of the USS *Liberty* Veterans Association was submitted on January 29, 2024, and filed the next day. You can read or download the briefs at <<https://spaces.hightail.com/space/oMuiiUFaID>>.

E. USS *Liberty* Legislation. Although not directly related to the lawsuit, there is positive news out of the New Hampshire legislature. There, Rep. Jason Gerhard and Rep. Michael Granger have sponsored a bill, HB 1041, to have the Granite State undertake what the US Congress has failed to do for so many years—conduct a proper, public investigation of the attack on the USS *Liberty*. Three *Liberty* survivors traveled from Colorado, Missouri, and Maryland to testify in support of the bill. You can watch their testimony at <<https://www.youtube.com/watch?v=ITq3IRP9ct4>>.

I was pleased to submit eight pages of written testimony (plus a five-page attachment) in support of the bill, which you can read or download from <<https://web.archive.org/web/20240206054152/https://gencourt.state.nh.us/house/committees/remotetestimony/showtestimony.aspx?&id=275133>>. The bill was later assigned for "interim study" and was "due out" on March 21, 2024, but it now seems to be stuck in committee limbo. Meanwhile SB 439-FN—a bill that would have the government of the State of New Hampshire punish Americans who boycott Israel—chugs along despite violating the First Amendment and garnering more than 10:1 opposition in a Senate hearing on January 24, 2024.

F. Feds Balk. The federal government was supposed to file their response brief in the appeal on March 22, 2024. However, on March 20, 2024, the government filed a motion to remand the case back to the district court so they can present new evidence and arguments in support of their refusal to release the HAC report. The government also requested the appeals court to "suspend the briefing schedule pending disposition of" its motion. In essence, the government wants a "do over". This is merely the latest episode in the federal government's ongoing blocking and stalling actions more than 56 years after the Israeli attack on the *Liberty*. My attorneys filed an excellent brief opposing the government's motion on March 28, 2024. We have no idea when the Court of Appeals will rule on the government's motion.
